

# THE END OF RANSOMWARE

Ransomware is turning up the heat – let us help you keep your cool

## Stay Cool With the Anti-Ransomware Attack Pack!

Valid from June 1 to September 30, 2017

New security technologies and solutions are needed to combat modern security threats like WannaCry, Locky, Goldeneye, and more.

Intercept X works in addition to and alongside existing antivirus scanners. This next-gen solution provides signatureless anti-exploit technology to help you detect, stop, and remove unknown encryption Trojans and zero-day malware. As the second component to next-gen security technology, sandboxing is highly recommended for effective security.

36,5 °C

### Don't let ransomware raise your temperature

You should be able to maintain a healthy temperature even when you encounter headline-making ransomware like WannaCry. To help make sure you don't break out in a sweat, we're offering you and your customers a special 36,5% discount. [See page 2 for more information.]

# THE END OF RANSOMWARE
